

# Inventory Management System

**X**<sub>pert</sub>  
Business Solutions

*Developing a Key Competitive Edge with an  
Inventory Management System*

*One of the largest costs to any business is that of stock on hand. Whether you're a manufacturer, retailer or distributor, the amount of goods held directly impacts your bottom line in a number of ways.*

**Multiple Companies**  
**Multiple Warehouses**  
**User Level Security**  
**User Definable UOM**  
**Categorized Inventory Tracking**  
**Receive Against POs**  
**Integrated Bar-coding**  
**Flexible Min/Max Quantity Maintenance**  
**Manual Requisition Entry**  
**Complete Requisition Approval Process**  
**Complete Audit Trail Of Every Stock Movement**  
**Different pricing methods supported**  
**Issue By Item, Carton, Pallet**  
**Unit Price Changeable Per Customer With Default Price Per Item**  
**Invoicing for issued material or manual entry invoices**  
**Manual creation of Purchase Orders**

**Reduce Costs:**

- 1. Reducing the learning curve of users**
- 2. Reduced data entry**
- 3. Reduce papers by using the document flow**
- 4. Reduce mistakes due to document conversion**
- 5. Reduce redundant work**
